

### Everyday tasks include:

Learning how to do bio-sensory with puppies, learning Puppy Culture method of raising puppies, mama care, basic grooming and the never-ending task of puppy clean up. Puppy snuggles are the icing of the job, keeping the puppies and mama's safe and clean is a continuous process. We have check off sheets for everything. We will teach each & every day.

We are looking for someone who is calm and patient yet clear, present and alert. This is the first time I've ever had to post a job opening. (I've ran out of teenage girls from friends & family) Most of the girls who work here prefer half day shifts due to school. We can offer full day shifts or half day shifts. Morning shifts, afternoon shifts and weekend shifts. Must have own transportation, love dogs, be on time, task oriented and not be squeamish or afraid to work. We have a really, good dynamic with the girls who work here.
